Reports That Affairs in Interior

All Important News Said to be Suppressed by Government.,

NEW YORK, March 7 A dispatch to the Herald from Matanza, Cuba, says Affairs seem to be growing worse in the interior important news is suppressed by the Lovernment which has entire control of wires and holds back coverything calculated to threw light on the situation. When the trebs are known to have a big force the government sesetys that they were adjured by an enforced draft from the villages. Advices from Santa Cara are to the effect that it was Spanish troups who retreated and not the robule.

All syss are new turned toward San Bomituge. Every available Spanish war yessed on the Last and South coasts is

A STORMY SESSION

A STORMY SESSION
Of the Arkansas Legislature Over
Railroad War
LITTLE ROCK, Ark, March 7 The
storm that has been gathering in the legislature over since the Iron Mountain
railroad a weak ago defeated the bill for
the establishment of a rairand commission in this state, broke out yesterday
afternoon when a resolution was offered
in the house to eject from the bail represontatives of newspapers that had
erticised the action of, the logislature.
Representative Monroe, rising to a
question of personal privilege, denounced
theyernor Clerke as an infamous that and
rason! When the rulroad commission
bill was first offered in the legislature it
was favgred by a large majority. The
houndouttain R. R. established a large
and infunctial jobby here and when the and influential jobby here and when the bill chane up for final passage it was de-

feated
The newspapers of Memphis intimated that bribery had been used. Gov. Clarke, in an interview on Tuesday, supported this charge of bribery. Inc same evening representative Monroe called on the Governor and was ordered from his office. For this reason Monroe made his attack on the Governor. It is thought that Gov Clarke will resent Monroe's attack in a decisive way.

BALTHORE, Md., March 7. The
steamship Indirint sailed from Baltimore
in January for Glasgow with 1,200 sheep
aboard. Capt. Webb, who arrived yesterday on his return voyage, reports that
the health authorities at Glasgow found
that several of the sheep had been attacked with diskin disease. They confiscated the cargo, took the animais
ashore, filled and burned them. Bens
and other temporary weedwork were
also carted away and burhed and the
vessel was put through, rigorous runingation.

It has been said by an eminent angined that, "when we considered that the expenditures made by municipalities are largely for sanitary and other public works that the proper design the economical execution and the success of failure of these works are dependent upon the skill of the engineer and upon the attention given by him to their execution, it will be seen that the office of municipal engineer is of the greatest importance to the community." The methods I find in use here are those which have been handed down from one engineer to another for the hast lifty years. At their surfuse engineer in therefore have attempted to introduce better methods, but have soon given it up because they found no previous surveys of sufficient accuracy upon which to base their work. And on account of the expense involved in going back to the beginning and doing the work all over again, have healtailed to make the recommendation, and have fallen back into the old ways of temporaling and doing the work as best they could with the means at their disposal, and at the least immediate expense to the city. This method of economizing, however, is only discounting the future. The city thereby avoids an immediate outlay at the expense of a very much larger one at some future time, than

Washington, March 7 The State Department has instructed Minister Hannis Taylor, at Madrid, to convey assurances to the Spanish government that the United States is talking extraordinary precautions to prevent the organization of expeditions from this country to Cuba and that our custom officers in ports from which contraband articles might be shipped to the insurrectionists have been ordered to be particularly careful in permitting doubtful wessels to leave port. These assurances are inteeded to indicate the very cordial attitude of the United States to the government at Madrid. of giving women the right of the ballot Mr Whelden, of Fortland, read a remons rance ugalust woman suffrage, signed by more than six hundred wome of Bath Mr. Whelden said "I am willty to admit all that the gentleman of Hisworth has sald about women being intelligent lam willing to admit all that the gentleman from Dexter said about slavery and I am willing to admit what the gentleman of Brunswick said about Napoleon, but none of it has anything to do with this question."

Mr keegan, of Van Buren, sald that owing to the modesty of Mr. Knowlton. of Portland, who signed

the Adverse Report he rose to defend that report. He referred to Mr. Whelden who had just spoken saying that the gentleman from Portland has struck the key note. He said that after raking and scrabing the State the friends of the measure had obtained only 5,000 names. He said that he had been pleased to listen to the eloquence of the gentlemen who spoke la layor of this measure, but if commo sense is to count for anything, let us ap-peal to it. Have the great body of women no rights? Not those who are here on exhibition, but the great body who are opposed to this thing. They tell us that all the women would vote for prohibi tion, so does every one here and h amounts to nothing. There is in this State at present one divorce for every eight marriages. Bring in this politics matter and there will be one in every four, yes, one in every two. On one is theory and sentiment, on the other the experience of thousands of years. WASHINGTON, March 7. The income tax cases were argued to-day in the su-preme court of the United States before Mr Powers said that if of every 10 preme sour of the United States derive a large number of attorneys and spectators. Besides the views of the striking array of counsei engaged in the case, there was furnished to the court a remarkable amount and variety of literature. This includes extracts from eviwomen there are 99 who do not want to vote and one who does want that right it is not justice to deprive that one of her rights. Woman suffrage is sure to come. Depriving them of this privilege is relie of the barbarism of the past. I hope no one will think we are forcing the right on women. We are simply recognizing this right and she can exer class it or not as she pleases. Mr Fairbanks, of Bangor, sald that

MANY WOMEN SUFFER FROM LACK OF INFORMATION.

octors are Too Reserved. A Woman Should He Dealt With Openly.

[SPECIAL TO OUR LADY READERS.] Women are often allowed by their phy-sicians to suffer much from lack of innation and anxiety.

In the treatment of female diseases men work from theory; and it is not to be expected that they can treat as intelligently those complaints from which they have never suffered, as a woman can who has made the organism and diseases of hersex a life study.

Women afflicted with female diseases are wise in pommunicating prompty with Mrs. Pinkhan, at Lynn, Mass. Their distressed condition is due to womb trouble, and their symptoms tell the atory.

years ago and their troubles connected with this brauch of their business."

Edwin Forbes, an artist and writer, died in New York, Wednesday, in his filty-sixth year, or Bright's disease. At the breaking out of the civil war he became the special war correspondent for Frank Eesile's Hustrated Weekly. He was present at alost of the principal energements of the war, and supplied his paper with many drawings made upon the field. At the close of the war, he wrote a history of it. A bill was introduced in Congress a few years ago-providing for the purchase by the government for \$100,000 of all Mr. Forbes' original-ketches of war access, intended to be placed in the publid library at Washington. The bill falled to pass. As a painter of horses Mr. Forbes ranked very high. He invented an apparatus for starting horses evening an area track. He did all his painting and writing in recent years with his left arm, his right arm being paralyzed.
